NEW! Reporting Missing Data in C131-LEA End of School Year Status

The SY 2012-13 C131 LEA End of School Year Status file specification has been updated and reposted to ED.gov to correct an error in the guidance section. The previously posted version instructed states to report a text value of "MISSING" to indicate missing or unavailable data in DG788 (Parental involvement reservation). Since DG788 is a numeric data group, the guidance has been revised to indicate that a negative 1 (-1) should be submitted in the file for LEAs whose data are missing.

NEW! Homeless Enrolled Data Quality Results Will Be Sent to States By March 3

No response to the outreach is required. By Monday, March 3, PSC will send each state's Homeless State Coordinator, EDFacts Coordinator, and CSPR Coordinator a workbook containing results of a data quality analysis of the homeless enrolled data (C118) collected in EDFacts. The analysis was conducted by Westat under the Data Quality Initiative contract for the Department's Policy and Program Studies Service. The intent of the workbook is to provide a tool that Homeless State Coordinators could use to help identify LEAs that may be potentially underreporting the number of homeless students enrolled in their district. The workbooks are intended to be informational and follow up by the states is not required.

States recently received feedback regarding potential data quality issues for CSPR Part I and for IDEA Part B Assessment data. PSC sent emails containing several attachments. OSEP also posted copies of the IDEA feedback on OMB Max. States have until **March 6th** to review the feedback and resubmit files to fix any known issues. In order for resubmitted data to appear in the CSPR, states must open a new version of CSPR Part I and certify it by 5:00 PM EST on March 7th. OSEP also conducts data quality checks on a snapshot of the assessment data as of the close on March 7th. Please contact PSC with any questions.
